Introduzione

Questo libro è indirizzato anzitutto ai bambini che vogliono mettersi alla prova con esercizi vari (per costoro è destinato ad affiancare i sussidi *Nuovo avviamento alla lettura 1 e 2*); in secondo luogo a tutti coloro che manifestino problemi nell'apprensione della lettura (dislessici, extra-comunitari, soggetti autistici, svantaggiati, etc.); infine a genitori, nonni, zii, insegnanti, educatori, etc.: insomma, non solo a coloro che desiderino migliorare il proprio apprendimento scolastico e/o realizzare un proficuo inserimento sociale, ma anche a quanti vogliono aiutare le persone loro affidate a raggiungere gli obiettivi desiderati.

Nel testo si trovano disegni da colorare, con evidente finalità didattica: ogni illustrazione raffigura una specifica lettera dell'alfabeto, e l'apprendimento è reso piacevole e stimolante.

Il "legame di somiglianza" esistente tra ciascun disegno e il correlativo segno grafico attiva, infatti, l'abilità di coordinamento oculo-manuale, garantendo così in modo semplice ed efficace la memorizzazione, la lettura e la trascrizione di ogni lettera.

Imparare a leggere e a scrivere deve essere, inoltre, un'esperienza che miri a suscitare l'interesse e l'attenzione, giacché l'apprendimento deve essere comunque graduale, spontaneo e a lungo termine.

I disegni – come è noto – stimolano la percezione visiva, attraggono l'immaginario interiore e rimangono impressi nella mente per molto tempo, lasciando una traccia sicura e tale da diventare preciso punto di riferimento per ogni lettera dell'alfabeto.

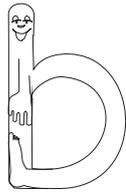

Ogni lettera, a sua volta, può essere facilmente ricordata proprio grazie al processo di "somiglianza", il cui compito è quello di unire in modo naturale i segni alfabetici alle illustrazioni didattiche, fino a stabilire fra loro un legame profondo e duraturo.

L'obiettivo principale che quest'opera si propone è – in ultima analisi – quello di suscitare in ciascuno il desiderio di apprendere, sviluppando nel contempo la volontà sicura di imparare a padroneggiare i primi rudimenti della lingua italiana.

Quando il singolo soggetto si sarà ben orientato in questo nuovo tipo di scrittura simbolica, potrà accedere gradualmente e sicuramente alla lettura vera e propria ed eviterà qualsiasi salto metodico.
